3.0 DUBLIN MEETING MINUTES October 2010

Minutes were confirmed GN FM

The Dublin meeting minutes are posted on the ISC20CH website, and the member talks from the highly successful evening session can be posted as soon as these are

forwarded to KN. *Action: speakers please forward Dublin evening talks to KN for website posting*

4.0 Presidents Report

Sheridan Burke (SB) provided short report outlining activity of the ISC20CH October-June and concluded with a brief review of the committee member action assignments:

4.1 **ICOMOS partnership with ICOM:** PJ reported that she has suggested the Paris Secretariat prepare an update report on the partnership between ICOMOS and ICOM including some of the similar initiatives which may be part of both committees. PJ hopes to have this prepared by the next GA meeting in Paris in December. SB noted that ISC20CH has a member ready to join the contemporary Art committee of ICOM (SU)

4.2 **ICOMOS Annual Report 2010/11:** SB submitted the ISC20CH Annual Report 2010/ 2011 to the ICOMOS Secretariat in Paris (See attached report).

4.3 **Dublin Scientific Council Meeting:** PJ reported that the ICOMOS Scientific Council met in October 2010 in Dublin, indicating that all meeting minutes and reports have been distributed and posted to the ICOMOS website for review by ICOMOS members. Annual reports of ISCs and NCs are also posted. PJ mentioned that the suggested themes for the next triennium include: metropolis (DB), the new heritage paradigm (GA/SB), industrial heritage (joint ICOMOS /TICCIH principles). PJ indicated that the SC wishes to have ISCs work in partnerships eg ISCARSH/shared heritage/theory + ISC20CH?

4.4 **ISC20CH Toolkit:** Following presentation and discussion of this initiative by SB at the SC meeting in Dublin, the members resource list will become a tab on the ISC20CH website. Members are encouraged to identify up to ten reference documents that we use in our daily practice, via hotlinks or PDFs, which may be useful for wider application. SB requested that each member browse each of their own reference libraries and forward to KN as their personal toolkit entries for the toolkit tab of ISC20CH website. An invitation and example sheet will be circulated inviting contributions so that each member will have a chance to respond with their suggestions in the near future. Moderation will be via self selection recommendation.

LC supports the idea of the Toolkit in that there is often reference materials that each one of us uses on a daily basis, we will not need to re-invent the wheel. LC willing to circulate this initiative to UIA.

DB recommended that we should interact with the ICOMOS Documentation Centre in trying to expand/co-ordinate our resources with the Centre.

SU also indicated that the bibliographic references from the MAP20 project may be able to be used for the Toolkit initiative. It was noted that there may be resources available from a number of countries that participated in the MAP20 project. Perhaps, there could be links setup from the Toolkit to the MAP20 project.

SB invited Toolkit co-ordinators for English, Spanish and French entries.

Action: Enrique Madia kindly offered to undertake Toolkit initiative implementation role for Spanish and Sandra Uskokovic for English- we need a rep for French speakers too.

4.5 Membership Development Action

Asia: SB reported on opportunities in Asia via mAAN (modern Asian Architecture Network) conference and network, and Yamana Yoshiyuki (YY) indicated that until the post-tsunami effects were reduced, the situation in Japan had more urgent issues to contend with.

Latin America: EA advised meeting soon in Brasil, he and EM keen to maximize activity

Europe: JH and FEM to work together with CSM, given BFs resignation .Possible regional meeting before Paris

NAmerica: GH and KN to check on interest of many silent USA members

Africa/Arab World: LR and CSM to initiate contact

SB mentioned need to positively engage with potential younger members to secure succession for the committee's longevity. She welcomed involvement with ETSAM faculty and students as an exemplar of how we can involve younger potential members, especially via conference participation.

5.0 Secretary General's Report:

5.1 **Membership Policy:** KN circulated the current membership policy approved in Dublin which clearly lists each membership category in our statutes and the process of managing membership. A copy is now posted on the website and can be accessed under the current membership tab. KN reminded us of the need to provide documentation for each member who is to be considered for expert membership into the ISC20CH and that new membership is encouraged, especially for younger members which includes all of us targeting early career professionals.

5.2 **Current Membership List and Database:** are being updated to accord with the various categories of our statutes by KN and RS. SB will initiate another membership invitation to all ISCs and NCs as soon as possible. All ISC20CH members are also encouraged to join up colleagues and suitable younger researchers and practitioners to expand the ISC20CH network. We would especially like to improve regional representation in Africa, Arab world and Asia. *Action CSM, LR and SB*

5.3 In summary, the current breakdown as per the 2010 Annual Report for the ISC20CH membership list is: 26 National Committee designated Voting Members; 26 Expert Members; 25 Associate Members; 6 Institutional Members; nil Honorary Members. The categories for membership are in our ISC20CH statutes.

KN indicated that RS will be working with him to confirm all of the file information for National Committee Designated Voting members to ensure that all of the information is current including required CVs and letters of recommendation from ICOMOS National Committees, data which we need prior to election organisation.

Enrique Maida noted that he is still listed as on the USA committee, the list does not reflect recent changes, as he is the voting member of Argentina. KN indicated that all membership details will be reviewed and updated before the meeting in Paris 2011.

KN noted that the Expert member category is separate from the national committee designated voting members as per the statutes, which are common amongst all ISCs. ICOMOS national committee designated voting members are also Expert members. KN clarified that there is only one designated national voting member per National Committee (as per SC decisions in Edinburgh that apply to all ISCs).

CSM indicated that the French National Committee believes that Expert members are appointed from the National Committee and may be following a different interpretation from the ISC20CH statutes on membership. PJ indicated that the Scientific Council had determined that any number of Expert Members can be appointed by National Committee, but only one **voting** member can be designated by each National Committee, to avoid overwhelming any one committee with certain nationalities.

There was a general discussion about allowing public access to details of ISC20CH membership, SB noting that some ISCs have membership lists and contact details on their websites. Some members indicated that they were uncomfortable with this exposure of private contact data.

Action: SB/RS/KN will update and check all data, and KN will write to all members seeking their approval for personal contact data to be listed on the website.

5.5 Website Development: KN reported that meeting minutes from the Dublin 2010 meeting have been posted on the website, including notes and related documents. In addition, information and web links to the current CAH 20th Century Madrid Conference 2011, Scientific Council Meeting and Conference Dublin 2010, and the ICOMOS Australia conference 2009 are posted. The website will soon be setup with a tab and link to the ICOMOS General Assembly Meeting

5.6 Social Media Development: KN is proceeding with design and linking of a Facebook page for the ISC20CH which can be used to post links to Heritage Alert actions, links to articles, photos and indeed information sent anyone interested in the work of this committee. There is potential for additional joint group meeting collaborations, weblinks and information postings which can be linked (for example, the ISCARSAH committee already has an active Facebook information page). Once the Facebook page is functioning, an email will be sent to all interested parties and members regarding the launching of the new page.

Action: Christine Madrid French (USA) has volunteered to help KN with the moderation for the Facebook page once it has been launched.

5.7 Elections: ISC20CH elections will be held before the end of October, ICLAFI will organise this for ISC20CH. A timeline for election process will be advertised and nominations called in September. All members are warmly encouraged to consider standing for election to the Bureau and in participating in the wide range of activities of the ISC20CH, recalling that being active is a requirement of committee membership in our statutes.

PJ noted that ICLAFI will monitor the process, and that the Secretariat will carry out the counting of the ballot to ensure impartiality. The process will be carried out electronically by email with all ISC20CH National Committee Designated Voting Members. KN again noted that he will need to confirm the current list of National Voting members before the election process commences, hopefully by mid-September 2011.

Action: Pamela Jerome (PJ) will contact the ICOMOS Secretariat to appoint an ISC20CH proxy for counting election ballots to be carried out in mid-September 2011. KN to confirm the NC Designated voting members

6.0 Treasurer's Report: Laura Robinson (LR) noted we have a modest bank account held by the International Secretariat in France. There is essentially not much to report since there has not been any particular income over the recent past. SB indicated

that there would be additional modest, income from further WMF desktop reviews in 2011.

Opportunities for institutional engagement raised by BF? NFA advised.

7.0 Project Reports

7.1 Heritage Alerts: SB indicated that the amendment of ISC20CHs Heritage Alerts system for all ICOMOS committees to use has now been completed, and the process will also be used for developing the resolutions for the GA.

Gunny Harboe (GH) reported that despite a number of enquiries, no further Heritage Alerts have proceeded. Often the cases come to our notice too late despite the fact that the details and forms are all currently posted on the ISC20CH website. . GH reported that local advocacy issues need to be well understood, timing is obviously critical as is involving the right people. The slowness or inability of national ICOMOS Committees to respond was an ongoing issue.

BW indicated that not all of the possible Heritage Alerts are listed on the website - is there a way to post them ? SB suggested that we could post a Heritage Alert as ' under investigation or in progress'.

EM mentioned that there may not be time to complete the HAforms if demolition was imminent, eg the Bacardi Building in Miami. EM also confirmed that the formal method of seeking NC agreement was problematic when the NC meets every two months and that this may take too long to acquire endorsement and approval for moving forward with a Heritage Alert. GA and PJ indicated that it is very important to get beyond the local politics of raising a Heritage Alert. Both Gustavo and Pamela recommended that if no response was made by a National Committee to a Heritage Alert, it may be necessary to take it to the next level in order to raise awareness- i.e. direct to the ICOMOS Executive Committee.

Current HA investigations

Finsbury Health Centre, London: SB awaiting input from UK ICOMOS

Groendaal grandstand, Belgium: GH to check emails

YY raised Kamakura Art Museum, Tokyo: SB and LC sent letter to Japan ICOMOS re threats to site form end of temple lease

N Dushkina raised Children's World, Moscow: SB and LC sent letter to Mayor of Moscow re unsympathetic proposal for alterations

Action: KN/GY consider adding a "HA in progress" section. GH to amend process for Exec Cttee decision if NC not responding

7.2 World Monuments Fund (WMF) Desktop Reviews Watch List 2011 - KN reported over the past two months, 18 desktop reviews of 20th Century nomination sites to the WMF Watch List 2011 has been undertaken by various ISC20CH members. KN and SB extended a warm thank you to all of the volunteers who participated in the desktop review process and for donating their time and resources to this effort. It was agreed by a majority of the reviewers that the honaria for each site review would be donated to the ISC20CH committee.

7.3 MAP20 Project: SU reported that the Montreal Action Plan (MAP20) was initiated at a specialist meeting in Montreal in September 2001, convened by Dinu Bumbaru with

the support of Heritage Montreal and the Canadian Centre for Architecture. A short survey was initiated, which eventually grew by 2004 to include 50 countries worldwide with a bias to mainly European and North American buildings and sites.

SU recalled that at the Dublin meeting, she undertook to examine how we could post this work on the ISC20CH website. She indicated there are some significant issues related to obtaining copyrights in order to publish materials on the website. SB indicated that it may be a good idea to provide at least a summary document which describes the project. GH agreed that we should take the information that we have and disseminate the information in a way that sets examples. This project could be used as a good tool together with providing a foundation of examples to support the Heritage Alerts program.

DB indicated that he may find support in Canada for an ongoing discussion/possible meeting

Action SU/DB to prepare a short MAP20 summary for the website and prepare letters to NCs re update/publication of MAP20 outcomes

7.4 Heritage @ Risk: The recent ICOMOS publication was circulated by SB who thanked Bernhard Furrer for preparing the ISC20CH contribution on Tel Aviv.

7.5 Space Initiative: LR reported on her watching brief with the Interpretation Committee regarding the nomination of space exploration related sites.

7.6 The Madrid Document: FEM indicated that a separate session has been organized in the afternoon to work on the Madrid Document, which has had extensive input from the Bureau and the working group. SB noted the recent ICOMOS document on doctrinal texts criteria by Benedicte Selfslagh circulated at Dublin AC, and noted that the Madrid document would be useful input to the broader C20 Conservation Guidelines development that ISC20CH has initiated.

7.8 Work Plan for 2011-2013 Triennium: SB congratulated members on the great results from our first triennial work programme. Our successes have been directly related to individuals time availability and enthusiasms, but that now was the time to determine what issues we should carry on with, and what new projects we might engage with. ISC20CH needs to provide outline of our 2011-2014 work programme to SC early September. Ongoing projects would include

- World heritage advice SM/SB
- Heritage alerts GH/LR/BW
- Toolkit SB/EM/SU/French rep
- Guidelines document: FEM/

LR has reviewed the triennial work programme results and suggested that we could focus more on further outreach including Asia, Africa and South America, and that we need additional persons to assist us with this effort, hoping that we could have more regional discussions on a regular basis. We need to improve communications further. What better connections can we make with Universities? SB reiterated her preference for linking all ISC20CH meetings with University opportunities, to engage with academic research and involve younger associates.

SB also noted that two items on the original Quebec Work programme that had not been carried out should be carefully considered for the next triennium: the support for archives and archival research on the heritage of the twentieth century and the active protection

of significant places. Jorg Haspel (JH) has a proposal for a project to help nations develop tentative lists, which could fit well with our thematic history framework project, perhaps as a trial application? The outstanding fiche work of Docomomo was noted as a potentially fine resource.

Action JH/SM/SB consider tentative list options for development by ISC20CH.

Action LR to identify possible individuals and avenues of engagement for new members in Asia(with SB), Africa and South America(with CSM, EA and EM)

All members to provide LR with input for the next Triennium Work programme

It was all agreed that updating the MAP20 project is invaluable for moving forward with providing support for the Heritage Alert program

Action SU and DB follow up MAP20 update and implementation

It was also agreed that a similarly widespread usefulness could come from the initiative of the Toolkit as a practical good resource.

Action SB, SU and EM +French speaker rep to activate the toolkit in website.

7.9 World Heritage Activities

Thematic Framework Study Progress – Experts Meeting, May 2011 at the Getty Conservation Institute, Los Angeles. SB reported on the highly successful meeting organized by Susan Macdonald (SM) and the pre-circulated summary paper. This Thematic Study is currently in progress, and will be a major contribution to the ISC20CH World Heritage work. A more detailed report will be made available to ISC20CH before the GA, together with recommendations for ongoing work.

Action SM/SB supplementary report on WH thematic framework and next actions

Le Corbusier nomination review. SB thanked members who provided comments on the revised nomination dossier, which was requested in a very short time frame, and without translation support. SB foreshadowed the need to discuss the methodological issues of such serial/personal nominations further, perhaps as an agenda item in Paris.

8 2012 Meeting

ISC20CH Meeting 2012, Helsinki, Finland, prior to Docomomo conference
Action: RS to liaise with ICOMOS Finland regarding a meeting in association with the Docomomo meeting in August 2012.

9 2013 Meeting

Invitations welcome. Possibly Latin America? Japan?

10 2014 Meeting: with next GA NB 40 Years of Venice Charter celebration?

11 Next ISC20CH Meeting: The next ISC20CH meeting will take place on **Sunday, 27 November 2011** afternoon from 2:00 PM - 5:00 PM in Paris. This meeting will occur prior to the commencement of the ICOMOS General Assembly Meeting 2011 in Paris. Christiane Schmuckle Mollard is coordinating the time and location of the meeting for the ISC20C committee. We greatly appreciate her efforts in coordinating this for the ISC20CH. Please note that the location of the meeting is yet to be determined. Notification of the exact location and time of meeting will be sent by email to all committee members.

We will also follow with a short panel discussion at the Academy of Architecture Place de Vosges No. 9 starting at 6 PM. Members to present successful Heritage Alerts

Action CSM, KN will make arrangements for the Paris meeting 28 November

12.0 Thanks

SB thanked the Professor Juan Miguel Hernandez Leon and ETSAM for the strong support for the work of the ISC20CH and expert conference organisation. She also thanked FEM for his energy and patience in organising the conference over the past year, and the contributions by FEM, Susan Macdonald, Gunny Harboe and Bernhard Furrer for their work with the drafting of the Madrid Document, which has also involved the Bureau extensively. KN thanked Lucia Espinosa de los Monteros and Clare Moore for their assistance to the meeting logistics and translation.

13.0 A Pecha Kucha Presentation of projects by members, followed by Lunch.

ACTION ARISING FROM MADRID ISC20CH MEETING JUNE 2011

3-5 **Activity Summary**

The 2010 ISC20CH annual meeting was held in conjunction with the ICOMOS Advisory Committee and Scientific Council meetings and the Scientific Council Symposium, 26 October 2010 in Dublin, Ireland. Members emailed a short report of their activities for 2010 for inclusion in the meeting agenda and minutes.

ICOMOS Ireland in partnership with DOCOMOMO Ireland, the ISC20CH and Dublin City Council delivered an evening of short (15min) presentations by hosts and ISC20CH members about current Twentieth Century Heritage issues entitled **Conserving the Recent Past**. The event was sold out and proved to be an energizing start for the ICOMOS meetings in Dublin.

ISC20CH managed six requests for heritage alerts in 2010, most did not proceed in the absence of national ICOMOS committee support. The Asplund Library in Stockholm alert was successful in halting the proposed redevelopment of the library precinct. The engagement of ICOMOS Sweden in the strategic development and media approach was essential.

At the Dublin meeting of the Advisory Committee, ISC20CH president Sheridan Burke presented an adaptation of the ISC20CH initiative "**Heritage Alerts**" as an opportunity other ISCs or National Committees to adapt and use.

The ISC20CH has adopted a **membership management policy**. (on website)

The ISC20CH has revised and updated its **website** (populating it with papers, minutes and relevant documents and resources).

The major projects for ISC20CH in 2010 have been the development of **the historic themes framework**, the initiation of the **Madrid interventions document** and the concept development of the **toolkit** idea.

4 **Scientific Work Programme**

4-1 Date adoption of the Scientific Work Programme:

The ISC20CH triennial action plan was adopted at the GA in Quebec, and has been actively implemented by the members.

A major project for the committee is the development of an **historic themes framework** of the twentieth century, which will assist in identification and management. VP Susan Macdonald has secured assistance from the Getty Conservation Institute to hold an initial expert historians workshop in Los Angeles in May 2011.

Uploading of MAP20 Project: a survey on 20th Century Heritage conservation and practice undertaken in 2004 ISC20CH will confirm with US ICOMOS (funder) and NCs that they are happy to have the material uploaded to ISC20CH website, so that it is available for reference.

Russian Avant Garde publication: ISC20CH to support proposed Russian Avant Garde publication with ICOMOS Russia.. ISC20CH also maintains its engagement with Melnikov House conservation.

4-2. Suggestions for new initiatives:

Development of "**Twentieth Century Heritage Conservation Toolkit**" of best practice examples, guidelines, reports etc, identified by ISC20CH members on our website via uploads or hotlinks. Proposed to Advisory Committee for ICOMOS generally, ISC20CH to take a lead by developing a pilot program.

Development of a statement/guidelines regarding **architectural interventions on heritage of the Twentieth century** has begun, with a working group of members developing a draft document for public debate in 2011.

The next ISC20CH meeting will be held in Madrid, Spain during June 2011, followed by the AGM with the GA in November in Paris.

5 Seminars

ISC20CH members have been present at the following:

- International experts seminar on the *Integrity and Authenticity in Modern Movement Architecture-Case Paimio Hospital*. ISC20CH members Natalia Dushkina, Alfred Conti, Sheridan Burke participated and provided articles for the publication
- Japanese-German Colloquium on World Heritage for Tomorrow, jointly organised by JSPS and BTU Cottbus (Leo Schmidt), February 2010; (Jörg Haspel)
- Russian Expert Meeting "The architectural heritage of the 20th century" ,jointly organised by the Petersburg Dialogue and the Ural State Academy of Architecture and Art (assisted by and with contributions from representatives of ICOMOS Russia and ICOMOS Germany, of DOCOMOMO Russia and DOCOMOMO Germany (Natalia Dushkina and Jörg Haspel)
- August 24-29, 2010: 11th International Docomomo Conference, Ciudad de Mexico, Mexico. Member of the Scientific Committee and Chair of the session "The University and the City". (Susan Macdonald, Kyle Normandin, Gunny Harboe)
- ICOMOS Theory Committee conference May 2010 Czech Republic: Tolerance for Change (Sheridan Burke, Dinu Bumbaru)
- Attitudes to Heritage Colloquium November 2010, Cottbus, Germany Keynote lecture (Sheridan Burke, Jorg Haspel)

5-1 List of gatherings:

Committee meetings
Sydney July 2009
Dublin October 2010

Public Events

ICOMOS Ireland in partnership with DOCOMOMO Ireland, the ISC20CH and the Dublin City Council planned *Conserving the Recent Past*, an open to the public professional exchange together with the following program member presentations:

- Sheridan Burke (Australia): Tolerance for Change-Conservation Planning at the Sydney Opera House
- Bernhard Furrer: (Switzerland): Monte Verita, Ascona
- Gunny Harboe(USA): Restoring Mies : When Less Was Not Always Enough
- Kyle Normandin (USA): Travertine Repairs at Lincoln Center for the Performing Arts
- Shane O'Toole of DoCoMoMo Ireland: The Razing and Raising Again of Archer's Garage
- Fernando Espinosa de los Monteros Rosillo (Spain): Expansion on 20th Century Heritage: A Convenient Language
- Riita Salastie (Finland): Integrity and Authenticity in Modern Movement Architecture, Paimio Hospital, Finland

7 Heritage Alerts and Heritage@Risk

The ISC20CH Advocacy committee assessed six applications in 2010 for its Heritage Alerts Program. The template developed by ISC20CH (now on website) has proved an effective way to gather and confirm the information provided by applicants who want an ICOMOS Heritage Alert

Having piloted the concept for 12 months+, the ISC20CH adapted the concept for ICOMOS to offer a general Heritage Alerts system to all national and scientific committees at the Advisory Committee meeting in Dublin.

However, the practical communication and timing difficulties associated raise questions about how effective the HA system can be if national responses are slow or otherwise involved in the specific project relating to the HA?

VP Bernard Furrer prepared a section for input to the ICOMOS H@R report.

8 World Heritage related activities

8-1 List of activities:

- **WHWG:** Christiane Schmukle Mollard participated in the December 2010 meeting of the ICOMOS WHWG.
- **Paimio, Finland** ISC20CH members participated in an international experts seminar on the *Integrity and Authenticity in Modern Movement Architecture-Case Paimio Hospital*. ISC20CH members also provided articles for the publication
- **Historic Themes Framework** a small expert historians meeting will be organised in Los Angeles next year to develop stage 1-a brief for a study of the historic themes of the Twentieth Century. Sponsored by the Getty Conservation Institute ISC20CH has sought funding through ICOMOS for the next stage of engaging an independent consultant to develop stage 2 of this project, as a guide for listing and analysis

9 Other Activities and Programs

The ISC20CH elections will be held electronically in mid 2011

10 Publications

- Select papers from the *Unloved Modern* conference in Sydney in 2009 will be published by Australia ICOMOS in its journal, *Historic Environment*. Others are on the conference website
- Papers from the Dublin Evening *Conserving the Recent Past* will be added to the ISC20CH website
- Papers from the Madrid conference 2011 will also be published
- Papers from the Paimio experts workshop have been published

11 Current topics

Interventions in Twentieth Century Architecture. The ICOMOS International Scientific Committee on Twentieth Century Heritage - ISC20CH, is planning to meet in Madrid on the Monday, June 13, 2011, in association with Cluster on Heritage of The International Excelente Campus Moncloa it will convene an International Conference on June 14-16, 2011 to discuss the need for the development of the "Intervention Principles for 20th Century Architectural Heritage". The conclusions of the meeting will be expressed in "The Document of Madrid".

12 Partners

ISC20CH has three active partners UIA, Docomomo and TICCIH. A formal agreement was entered into with UIA and TICCIH on collaborating on issues of mutual interest in Twentieth Century Heritage conservation, largely through the ongoing commitment of ISCC20 members Louise Cox, President UIA and Helen Lardner, President of TICCIH.

The Istanbul principles were agreed by ICOMOS Europe with Docomomo in 2002 and their review and updating has been requested by ISC20CH to the ICOMOS Secretary General as a component of ICOMOS general partnership arrangements.

14 Additional Topics

Translation: ISC20CH operates in English and relies upon our own members to translate our documents into Spanish and French. This is a regrettable reflection of the financial position of the committee. The Secretary General is seeking avenues to assist.
